FROM: Tony Gallegos, Reclamation Engineer *adg*

RE: Site Inspection, William V. Harrison, Monoclinic #1 Project, S/037/085, San Juan County, Utah

Date of Inspection: December 8, 1994
Time of Inspection:
Conditions: Overcast, windy, cold, snow flurries, snow on the ground
Participants: Sal Venticinque, BLM; Tony Gallegos, DOGM

The purpose of this inspection was to become familiar with the area proposed under the notice recently received by the Division.

Sal showed me the project area described by the notice. The area consists of some unpatented lands around a knoll adjacent to some patented lands. At the time of this inspection, a person and a couple of dogs were on site. The person appeared to be using a geologist hammer to excavate into the rock looking for azurite crystals.
